

LOTUS NEWSLETTER, No. 18, 1987

INTRODUCTION

Purpose: The *Lotus Newsletter* consists of informal communications of research information on *Lotus*. Reports of any phase of research on *Lotus* breeding, genetics, taxonomy, management, utilization or physiology are welcomed. Your biographic sketches and information about your research objectives, approaches, and progress including titles of your publications are encouraged; seed requests and news items are accepted.

This is the 18th year of publication for the *Lotus Newsletter*. Now is the time to consider contributing to the 19th edition of the *Lotus Newsletter*. Contributions are compiled without editing. Please follow the guidelines below when submitting your report or information:

1. Single space typewritten text on white 8 1/2" x 11" (21.5 cm x 27.5 cm) paper. Double space between paragraphs and tables. Do not number pages.
2. Leave a minimum of 3/4" (1.9 cm) on the left and bottom of each page.
3. On the first page of each contribution, indicate state or country, title of report, and name(s) of contributor(s).
4. Send contributions by December 31, 1988 to:
