

LOTUS NEWSLETTER, No. 25, 1994

1. **Introduction:** instructions to contributors
notes from the editor
questionnaire
notes and news

2. **Lotus Activities:** reports and abstracts

G. M. Tourn, A. Bartoli, R. D. Tortosa, G. G. Roitman, and M. C. Saucedo. *Lotus tenuis* Wald. et Kit. and *Medicago sativa* L. (Fabaceae): an holistic approach.

G. M. Tourn, and G. G. Roitman. *Lotus tenuis*: regenerative strategies on natural grazing.

M. Niizeki and T. Kodaira. Stability of somaclonal variation.

O. S. Correa and A. J. Barniex. Acid tolerance of *Lotus tenuis*-*Rhizobium loti* in laboratory media.

W. M. Kelman. Genetic analysis of condensed tannins in *Lotus pedunculatus*.

R. D. Sheldrick, T. M. Martyn, and R. H. Lavender. Evaluation of companion grasses for *Lotus* in the U.K..

D. E. Cooke and K. J. Webb. Considerations when using *gus* as a marker gene in *Lotus corniculatus*.

B. Jørgensen, L. Skøt, and K. J. Webb. A study of the flexibility of the transformation system in *Lotus japonicus*.

K. J. Webb, S. Mizen, and D. E. Cooke . A long term study of *gus* activity in hairy root cultures and primary transformants of *Lotus corniculatus*.

F. Olmos. *Lotus* news from the northeast of Uruguay.

G. Lemmi and V. Negri. Research on 2n pollen production in *Lotus tenuis* at I.M.G.V. of Perugia University.

O. R. Vignolio, N. O. Maciera, and O. N. Fernández. Effects of waterlogging in winter and summer on the growth and survival of *Lotus tenuis* and *Lotus corniculatus*.

A. D. Bavage and M. P. Robbins. Dihydroreductase a *Lotus corniculatus* L. tannin biosynthesis gene: Isolation of a partial gene clone by Polymerase Chain Reaction.

C. D. Strittmatter, R. A. Ricco, M. Kade, M. L. Wagner, and A. A. Gurni. Condensed tannins in *Lotus tenuis* Waldst. et Kit.

D. R. Viands, N. J. Ehlke Y. A. Papdopoulos, and R. R. Smith. Cooperative project to develop birdsfoot trefoil with multiple disease resistance.

W. F. Grant and I. Altosaar. Acrylamide gel electrophoresis in the separation of soluble leaf proteins in *Lotus*.

N. Lázló. Recent data on stands of bird's foot trefoil growth with different seed dosages, herbicide treatments and cutting phenophase.

P. R. Henderlong. *L. corniculatus* research in Ohio.

4. **Cuurent Listing of *Lotus* Newsletter Recipients.**

5. **Recent *Lotus* publications**
